

(This document is available as a Google Doc: <https://goo.gl/BZdVhM>)

Feature name

Proposal: NNNN

Authors: Author 1, Author 2

Status: Awaiting implementation

Implementation: github.com/...

Introduction

A short description of the feature.

Motivation

Describe the problems that this proposal seeks to address.

Proposed solution

Describe the proposed solution to the problem.

Design

Provide the details of the design of the proposed solution.

Effect on API Compatibility

Will this change break existing code that uses the existing API?

Effect on IPC Compatibility

Will this change break existing applications that use the existing IPC protocol to communicate with the dispatcher out of process?

Alternatives considered

Describe alternative solutions to the same problem and why the proposed solution is the best among the available options.
